Tarannum Zahid Khan

Frontend Developer

Nashik, Maharashtra | tannuzkhan123@gmail.com | +91 8857965122
Portfolio | GitHub | LinkedIn

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+)
Frontend: React.js, Redux Toolkit, GSAP, Tailwind CSS, SASS, Responsive Design, Component-Based Architecture
Tools & Platforms: Git, GitHub, Vercel, VS Code, Figma, REST APIs, JSON Server
Other: Cross-Browser Compatibility, Web Performance Optimization, Web Accessibility

Professional Experience

UI/UX Intern — Jan 2025 – April 2025 (3 Months)
TechMET IT Solutions Pvt. Ltd. — *Nashik, India*

- Designed responsive web interfaces and UI components for 7+ admin panel screens, improving UI consistency and usability throughout the product
- Collaborated with developers to translate Figma designs into production-ready code, enhancing overall user experience
- Conducted usability reviews and implemented feedback-driven improvements, reducing design inconsistencies by 40%

Projects

Animated Portfolio Website (Rejouice) | GitHub | Live

- *Tech: HTML, CSS, JavaScript, GSAP, Locomotive Scroll*
- Built a high-end animated UI with 6 scroll-triggered sections using GSAP timelines and animations, achieving smooth and responsive animation performance
- Integrated Locomotive Scroll for 100% seamless scrolling experience and advanced scroll-based visual effects
- Implemented optimized page transitions and animations resulting in a polished, production-grade user experience

React Food Ordering App (Flavoro) | GitHub | Live

- *Tech: React.js,Tailwind css , Redux Toolkit, REST API, JSON Server*
- Built a scalable, component-based React.js food ordering application with 25+ products and global state management using Redux Toolkit
- Implemented full CRUD operations (Add, Update, Delete) with REST API integration via JSON Server, handling 100% of cart operations in real-time
- Optimized application performance using React lazy loading and code-splitting, reducing initial load time by 40%

Image Editor Tool | GitHub | Live

- *Tech: HTML, JavaScript (ES6+), SCSS*
- Developed a client-side image editor with real-time controls for brightness, contrast, saturation, grayscale, blur, and hue rotation using CSS filters
- Built custom image preview and manipulation logic using JavaScript, handling dynamic style updates with Canvas

Education

Bachelor of Computer Science — 2022 – 2025
Yews National Senior College, Nashik — *CGPA: 8.75 / 10.0*

Certifications & Courses

MERN Stack Development (Ongoing) | *Sheriyans Coding School* — 2025

- Currently learning full-stack development with MongoDB, Express.js, and Node.js
- Strengthening React.js fundamentals with backend integration and REST API implementation

UI/UX Design Webinar — September 2024
GUVI (in collaboration with HCL) – "From Zero to UI/UX Designer: Starting Your Design Journey"

- Learned core UI/UX design principles including user flow, usability testing, and design thinking methodology
- Gained hands-on understanding of wireframing, prototyping, and user-centered design approach
